

SmartDrive

The SmartDrive gives you freedom to do more. It moves with you and it's so lightweight, you don't even know it's there. You can spin in place, be in a wheelie, or hop off curbs. It is compatible with your active lifestyle.

SmartDrive was created with manual wheelchair users in mind. The mounting location, the ergonomic handle, the weight, and the OmniWheel were all designed to create a seamless power assist experience.

Smoov

The SMOOV one is an innovative electric drive that you can easily dock on to and off your wheelchair whenever you need some extra power. On gravel, wet roads, or on cobblestones, the tire treads along with the innovative drive system help you reach your destination safely. Even in the dark, feel safe with SMOOV one thanks to its integrated LED light.

Amplify your ride. Connect your SMOOV one to your iOS or Android device for free. The app lets you adjust your driving mode and settings on the fly while keeping an eye on your battery life, range, speed, trips, and more.
