

IT'S TIME TO EXPLORE

Wheelchair off-road attachment

FREEDOM
TRAX

Freedom Trax is the ONLY motorized off-road attachment for manual wheelchairs on the market. The portable and affordable option for travel, exploring, and getting off the beaten path. This wheelchair off-road attachment uses the same type of technology that tanks use – rather than wheels, which are more likely to sink into the ground and equipped with a more versatile track system to glide over obstacles.

Laurel Medical Solutions is a proud provider of the Freedom Trax.
