The **RABBIT UP**

The Rabbit Up is **secure, reliable** and **adjustable** for all your standing needs while also offering the independence to explore using the optional driving, quick release wheels.

The Rabbit Up enables the child to be an active participant at **eye level**, whilst stimulating senses and providing the child with **more independence**.

Adopting the standing position allows the child to gain **new perspectives** on their surroundings and apply alternative loads on their bones, joints and muscles, providing the possibilities to **develop new skills**.

The Rabbit Up comes in **four sizes** and is suitable for children between the age of **1 to 18 years**.
